	Cows flowed through yards and up the race with ease. Odd cow stirred in crush and under pressure but settled once back in the mob. Cows outside the yard blocked up with ease and handled very well.		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , On foot , Vehicles		
Assessor Comments	A 3 deck line of VGQ station mated Droughtmaster cows & calves that are ideal units to fatten and split or keep on as breeders. This line is best described as being large frame and in store to forward store condition. Cows are doing an excellent job on calves with an avg weight of 160kg and 20 x calves 150kg plus. There are 10 x marked calves and the balance unmarked, with 1 x calf noticed to have a small soft lump on head at assessment. Cows had a big curfew with 16 hrs off feed & water. Good quality framey cows with sizable calves at foot that will bounce ahead on good feed.
