Assessor Comments	A very good line of first calf heifers with calves at foot. Purchased as PTIC heifers August 2021. Selling 43x42 - pulled out 3 heifers that were obviously dry or had lost a calf. Majority of heifers well grown and all are doing a very good job on their calves. 42 CAF range from 88-243kgs to aver 159kgs - 24 males calves, 19 heifers calves. Calves unmarked, unbranded but have NLIS tag. Please note: 1 heifer has twisted nose. 1 heifer was lame at assessment and will be rejected if not right by delivery (heifer 451kgs with bull calf at foot). Heifers rejoined to Droughtmaster bulls based on Glenlands bloodlines at 4.5%. Bulls in from 25/11/21 to 02/02/2022 under favourable seasonal conditions. Ideal line of replacement breeders with excellent calves at foot.
