	Generally good to handle. 1 heifer did want to run around in yards and became agitated in crush. Cow herd very good temperament.

Assessor Comments	A very good line of Angus/Hereford cross heifers 1 brand acc breeder. These heifers have been joined for approx. 6 weeks to a Moorobie Stud Angus Bull. (photo attached). Should be 31 heifers in mob but only 28 were mustered for assessment. 3 missing heifers same as assessed. Mouthed 10 head all good milk teeth. Note: 1 heifer has lump on jaw - appears to have been staked. Some very light weeping from it (photo attached). Some heifers have slight rubbing around eyes from fly bites. Vendor has not retained any Angus/hereford cross heifers for breeding. Heifers would make a very good line of future breeders. Would suit backgrounders/feedlots with a treatment of Lutalyze. Heifers well grown in good condition. Show good bone and type.
