Assessor Comments	A line of predominantly Brahman PTIC Cows with 4 calved. Cows present from store condition to forward condition. Cows are station cows out of the Gulf originally and have been transported down to be sold. Cows have been bred in lighter country and should do well in most conditions. Cows were good to run through crush when given space however when pressured reacted accordingly. **Please Note** All cows were mouthed - 2hd with worn mouth, 3hd missing 1 tooth and 3hd with a full broken mouth. 1 cow had the cap knocked off her hip, 2 cow had a short tail deemed not detrimental at assessment.
