	Slightly Stirry: 50 head Stirry: 34 head Aggressive: 7 head	Quiet: 50 head Slightly Stirry: 35 head Stirry: 6 head	Temperament not assessed in Paddock
	These don't look to have had much handling at any time. Worked very quickly in all aspects of the yards but were reasonably settled in the crush when being scanned. They spook easily, need to be blocked through gateways & can become aggressive but only seems when they are isolated from the mob. They were mustered with a chopper & then walked without incident about 20kms to the yards using horses and dogs. Buyers should be very careful, they are best worked using experienced livestock handlers.		
Handled With	Aerial (Helicopters, gyro's and planes) , Dogs , Horses		
Assessor Comments	Buyers a line of mainly Brahman heifers with the odd Charbray all with calves at foot and some a 3 in 1 unit scanned back in calf to Angus and Shorthorn bulls. They present in store to forward store condition. They are very good quality heifers that show excellent length, depth of barrel, bone and will provide a restocker with many years of quality breeding. These have been on agistment for the past 12 months at Mungindi & have had basically no handling since they arrived there. They arrived as young heifers that had obviously been chance mated prior to purchase and look to have had a Charolais cross calf. They have since had an abundance of feed in front of them the whole time but they have had their calves and lack the condition that the other lots have, consequently a bit lighter. All up 416 being offered in 5 lots & will allow buyers to fill decks up. Buyers check out the size of the calves in the video and photos, WOW!!!
