Other Joining Details	Vet didn't age the calves when being scanned so assume to be 4-7 months. In calf to stud bulls from Sandon Glenoch

Temperament	Angus and Grove Shorthorn bulls.		
	Yards	Crush	Paddock
	Slightly Stirry: 40 head	Quiet: 40 head	Temperament not assessed in
	Stirry: 50 head	Slightly Stirry: 42 head	Paddock
	Aggressive: 2 head	Stirry: 10 head	
	These don't look to have had much handling at any time. Worked very quickly in all aspects of the yards but were reasonably settled in the crush when being scanned. They spook easily, need to be blocked through gateways & can become aggressive but only seems when they are isolated from the mob. They were mustered with a chopper & then walked without incident about 20kms to the yards using horses and dogs. Buyers should be very careful, they are best worked using experienced livestock handlers.		
Handled With	Aerial (Helicopters, gyro's and planes) , Dogs , Horses		
Assessor Comments	Buyers a great line of Brahman heifers with the odd Charbray all scanned to Angus & Shorthorn bulls that present in forward store to prime condition. They are very good quality heifers that show excellent length, depth of barrel, bone and will provide a restocker with many years of quality breeding. These have been on agistment for the past 12 months at Mungindi and have had basically no handling since they arrived there. They arrived as young heifers and have since had an abundance of feed in front of them the whole time and allowed them to grow into big roomy matrons. I did note one heifer with a stumpy tail. There are 184 of these in the run and will be delivered as a "run out the gate" into two even drafts (2 x 92) if purchased by multiple buyers. You will need a 4.5 deck unit to fit these on. All up there are 416 being offered in 5 lots and will allow buyers to fill decks up. Buyers these are a worthy long term investment to produce quality progeny for many years to come.
