Assessor Comments	A quality line of 40 Angus Cow that were purchased as weaners to grow out as replacement breeders after the drought. Well grown rising four year old cows that have had one calf weaned from them in calf with their second calf. These Cows would fit into a breeding herd as quality keeper heifers. The The vendor is only selling the Cows as they have purchased them with the property and have their own bred females to move onto this country. The cows were very quiet in the paddock with all photos and videos taken in the paddock. The cows let me walk up close to them and take photos and didnt move at all.
