Assessor Comments	Good frame Xbred cows in good condition to take on and calve in the spring. In calf to Charolais bulls ideal to rear a vealer and split and trade later on. Most cows 3-6 months in calf a couple of cows 6-7 months. Mostly good frame cows with a couple of smaller cows in the lot. some young cows only coming to 2nd calf also in this lot. Cows originally purchased off the coast so its suggested they could go back to the east without any climate issues. 2 cows have rumen bolus RFIDs. Cows generally good to handle small percentage will move freely in yards. No cows showed any Malice. All block up well and walk along for a dog. 2 cows will have weaners taken off at delivery. 10 cows over 4 months pregnant (red paint). 6 cows under 4 months (blue paint). Vendor has 2 other lots in same sale.
