Handled With	Cattle were a pleasure to handle. The odd cow became disgruntle throughout the weighing process, but quickly calmed down when returned to mob. Facilities could be a contributing factor to being agitated during weighing process. Bikes , Dogs , Horses , On foot			
Assessor Comments	An excellent offering of 3rd calvers. Cows and calves in prime condition with many more years of breeding in front of them. Due to unforeseen health circumstances, cattle are being sold as a herd dispersal. Cattle are large to very large frame and in prime condition. Cows were originally purchased off A+ as heifers and calves. Cows averaged 678kgs, high 790kg - low 568 kg and calves have been marked, vaccinated and range from 145kg to 40kg to average 85 kg. A great opportunity to step into a line of quality breeders. Please note: One calf and two cows had slight pink eye, all were treated on 22/02 with Orbenin and second dose on the 26/02. 2 cows with white on utter. Some calves displayed signs of scours but on the mend.
