	Cattle were quiet and easy to handle and flowed through the yards well. If put under pressure or singled out, would become agitated and stirry. Quick to go through open gates.		
Handled With	Bikes , Vehicles		
Assessor Comments	35 x 35 Bos Indicus cross heifers with 'Booroomooka' blood Angus calves at foot. These heifers are doing an excellent job on their fresh and sappy calves which averaged 89kg at assessment. Sex break up; 21 x bull calves, 14 x heifer calves. 32 calves are black in colour, 2 x yellow, and 1 x red. Heifers range from 24 to 46 months of age. All heifers were mouthed at assessment and range from 2-6 teeth. This is a good opportunity to purchase a line of quiet young predominantly Droughtmaster and Santa Gertrudis cross heifers with their first calf at foot. One heifer has a twisted nose considered not detrimental.
