| Assessor Comments  | A very nice line of Droughtmaster cows and calves. Assessed as an entire mob of 62 but being offered in two even two deck lots. Bred originally in Richmond North Queensland from the renowned Lazy A Droughtmaster stud and have run at "Wirchilleba" for the last 18 months. Have been depastured to Bongongo Angus and Rockingham Santa bulls since the 18th of November one would assume that a fair number of these females would be back in calf going on the age of the calves at foot. Calves are a mixture from these same sires and their mothers have been doing a great job with all calves presenting in good fresh condition. Very well educated and easy to handle for Bos cows - after a long day of mustering and drafting there was no playing up at all. As mentioned previously being offered as two even as possible lines if they were to go to separate buyers and will mother to this if that is the result, otherwise ready to go as a four deck consignment with road train access available on our end |                         |                             |
