Assessor Comments	A line of Station bred Cows and Calves purchased off The Herd Online as PTIC females. Majority of Cows are branded 6's and 7's, with the odd 4 brand scatter through mob. Approx. 50% Cows mouthed at assessment, and showed strong full mouths. These Cows have settled down since arriving in April last year, due to vendor handling. The Cows are British bred, with small percentage of Bos Indicus through herd. Cows have done a great job on their calves, that are 5-6 months of age and have only just been marked 2 weeks ago. There is one Hereford X and one Santa X calf in mob. Cows have been re despastured with Bongongo Angus Bulls, a chance joining with a Santa bull may have occurred late in their cycle.
