Assessor Comments	An opportunity to put together a run of 40 PTIC EU Rennylea Angus blood cows, offered in two lots of 20 delivered run out the gate. They are rising 9 years of age (August 2013 drop). These cows have been scanned in calf every year with dry cows sold annually. The cows were joined to high indexing Rennylea Angus sires, with the Hearn family targeting bulls with high 400 day growth, high IMF, calving ease, and must have near perfect structure, and it shows in these cows as they are large framed matrons with great structural soundness. Anyone looking to get a herd started you couldn't look past the genetics of these cows, they would form a strong foundation and get you started off on the front foot. Buyers please note 2 cows with longer back toes see pictures, odd cow with old scarring on an eye not impacting vision.
