Assessor Comments	Timanda's AI program has been going for many years, with them selecting the best bulls available to use. With cows selected for moderate frame, high growth & IMF. These heifers are available for your purchase due to the high fertility of the herd. PTIC to low birth weight Timanda bred bulls, due late August for 9 weeks. Ideal females to base your herd around or top up on breeding numbers, with plenty of genetic power. Please note 1 heifer has white on her under belly.
