Assessor Comments	Buyers and opportunity to purchase a lines of proven breeders that will make ideal split articles. These cows are all proven breeders with beautiful Charolais cross calves at foot and have been running back with the Charolais bulls. These cows are medium to large framed and are putting plenty into their calves. The O'Dell family have been breeding Charolais cattle for years and have a reputation for producing highly productive cattle that go out and preform. Buyers please note in this lot the 3 cows without calves do look to be in calf with the cows softening around the tail head. In this lot there are a number of cows with buffalo fly irritations around the head and neck. Also in this lot there is a cow displaying red skin as shown in the photos, this cow has been like that since she was purchased and it does not affect her at all. There is 1 Brahman cow in the lot that snores when she breaths this cow has been like this for years.
