| Assessor Comments             | Buyers a good 4 deck line of predominately young to middle aged cows and calves. Cows were purchased pregnant ex Maranoa and Warrego districts. Cows are doing a great job on their calves with all calves soft flatback types to suit all markets and being joined back to good quality Santa and Santa /Angus Bulls . These Cows would ideally suit to go back into a breeding herd given their Quality and age ( note the lighter weight cows are predominately the first calf heifers that will grow out to heavier weight given the opportunity ). Alternatively they would be ideal to do a quick trade as it would be expected to be a good percentage of cows back in calf and the high percentage of bull calves in mob. Please note 1 cow had slight capped hip, 2 with old blight scarring in one eye and several showing some slight fly rub none of the above considered detrimental. Vendor also has 1 deck PTIC cows and 3 decks PTIC hefs this sale |                                           |                                     |
