Assessor Comments	Buyers 1 deck line of predominately young to middle aged cows. Cows were purchased as store cows from Maranoa/Warrego district in 2021 and joined to good quality Santa and Santa/Angus Bulls to be 88% PTIC 4 mths plus, balance 2-4 months. These cows have the quality to be an asset to most breeder herds, showing good bone, depth and softness and are the right crosses to make sure all progeny fit Domestic feeder markets. Alternatively would be ideal quick turnover cows to calve out and value add. 1 cow showing old blight scaring in 1 eye and a couple showing slight fly rub marks neither considered detrimental. Please note Vendor has 3 decks PTIC heifers and 4 decks Cows and calves this sale.
