	Heifers very quiet and easy to handle in yards. Well educated young heifers with some heifers becoming agitated in crush but settle once back in mob.		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , On foot , Vehicles		
Assessor Comments	An opportunity to purchase a 2 deck line of quality soft young Droughtmaster & Droughtmaster X future breeders PTIC to PP Droughtmaster bulls. These Heifers are best described as medium to large frame and present in forward store condition. The quality and softness of these heifers do not become available very often and will be an asset to any herd. Heifers were preg tested on 9/03/22 by vet 4 - 7 months in calf and are identified with a full bang tail. At assessment 1 x heifer noticed with slight twist in nose and 1 x heifer noticed with no brush on tail both not seen as detrimental. Also odd heifer with old fly bite lumps. **Vendor also has 1 other lot in sale**
