	The Cows had been in the yards for a day which resulted with a few getting a bit flighty in the yards and the crush. The majority of the cows worked well through the pound, crush and yards; with only a few challenging when too much pressure was applied.					
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , Vehicles					
Assessor Comments	Three decks of Good Frame, mixed aged PTIC cows. These cows present in strong condition and are due to calve within 2 months of each other to Top Quality Angus bulls. This allows the purchaser to breed an even line of calves to supply either the lucrative trade or Angus Infused feeder markets. Unfortunately we were not able to see all the year brands but they all present in strong healthy condition and should easily be able to rare another couple of good calves. *Please also note there is a couple with clouding in the eye/old scaring but not detrimental. *There is also 51 PTIC sisters in the same sale.
