	Heifers good to handle through the yards. A couple of the heifers got a bit agitated whilst being tested in the crush. A normal reaction to the procedure, they soon settled once back in the mob.							

Handled With	Bikes , Dogs , On foot , Vehicles
Assessor Comments	A nice little mob of angus cross PTIC heifers. Heifers all tested by the vet to be in calf 3-4 months in calf to the angus bulls. This will ensure a tight calving window in early spring. Heifers will make good breeders definitely worth a look.
