Handled With	Bikes , Dogs , Horses , On foot																		
Assessor Comments	Gilliland Livestock Marketing presents 27 good quality Brangus cross PTIC heifers. Heifers present in forward store condition after grazing scrub country at Mount Alford to average 495kg on assessment. The heifers are very well grown with plenty of bone and frame which will put them in a good position to calve later this year. Heifers have been joined to Angus bulls from October 2021 to February 2022 and are all pregnancy tested in calf, predominantly being over 4 months. As can be seen in the photos and videos there are 2 heifers with some orange tan through them and one heifer with a star and 2 white socks. The heifers are mixed brands however present as a line very well. Overall, this is a wonderful opportunity to secure a line of black breeder heifers, with a calf on the way and their whole lives ahead of them. Buyers please note vendor has 20 Charolais cross PTIC heifers in same sale.
