Assessor Comments	Gilliland Livestock Marketing presents 20 very good quality Charolais cross PTIC heifers. Heifers present in forward store condition to average 505kg at assessment. They are very well grown with plenty of frame and length about them which will ultimately make them large framed cows once fully grown out. Heifers have been joined and pregnancy tested in calf to Angus bulls. As can be seen in the photos the heifers vary in colour with the majority of the heifers being creamy or white in colour. This is a very lovely line of breeder quality females that will produce a very marketable calf and make wonderful breeders. Buyers please note vendor has 27 PTIC Brangus heifers in same sale.
