	Slightly Stirry: 7 head	Slightly Stirry: 7 head	Paddock
	Stirry: 2 head	Stirry: 4 head	
	These heifers were a pleasure to handle right throughout the mothering, drafting and weighing process. Using a low stress stock handling approach by the vendor he found that the less pressure put on them the better they flowed through the yards. A couple heifers became agitated when drafting and weighing but is as expected when they are getting there calves drafted off them aswell as put up a cattle race in a foreign environment. These heifers will need to be handled carefully.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	An Outstanding line of Queensland bred Charbray Heifers doing a cracking job on their 1st calf @ foot. These heifers present in a store to forward/store condition which have been station mated back to the Angus bull. The Calves breed content consists of Angus/Charolais & Marellan Shorthorn which were yard mothered and the older calves are in fresh condition exhibiting great squareness/softness with new born calves being declared strong. The Heifers present with full and firm udders which are displaying great maternal attributes. These heifers and calves creates a great opportunity in purchasing youth that will do a job in any intended breeding program for many years to come. With the exceptional cattle market prices that keeps going from strength to strength, this article provides a safe bet as the young breeding females are the future of the industry. OPPORTUNITY NOT TO BE MISSED. Note vendor has 2 other lots of heifers & calves in same sale just drafted on breed.
