Assessor Comments	Buyers, a line of Angus and Angus X PTIC heifers that present in store to forward condition ideal to take home and calve out. Heifers present good bone and length, with the right opportunity they should grow into large framed future matrons. Well handled and ready to power ahead with what is shaping up to be an excellent autumn. Vendor runs a rotational grazing operation moving cattle every few days. Only being offered for sale due to a change in enterprise!! Please note one heifer had active pinkeye which was treated and patch put on at assessment. One heifer had snotty nose.
