	Quiet: 60 head Slightly Stirry: 5 head Quiet: 55 head Slightly Stirry: 10 head Temperament not assessed in Paddock Generally a very good mob of Droughtmaster females to handle. Obviously well handled and educated from their property of origin. Flowed through the process well. Were good cattle to muster. Pleasure to work with
Handled With	Bikes , Dogs , On foot , Vehicles
Assessor Comments	A very nice line of Droughtmaster PTIC Heifers. Assessed as an entire mob of 130 but being offered in two even three deck lots. Bred originally in Richmond North Queensland from the renowned Lazy A Droughtmaster stud and have run at "Wirchilleba" for the last 18 months. Have been depastured to Bongongo Angus and Rockingham Santa bulls since the 1st of August last year and have been preg tested in calf to be greater than 4 months by Tom Graham of Coolac Veterinary Clinic. Very well educated and easy to handle for Bos heifers - after a long day of mustering and drafting there was no playing up at all. As mentioned previously being offered as two even as possible lines and if they were to go to separate buyers will be delivered as such. Please note the stipulated delivery dates due to remote location if you could work to this would be greatly appreciated - if its a drama talk to myself. These heifers are something special - consider closely.
