Temperament	Yards	Crush	Paddock
	Quiet: 32 head	Quiet: 28 head Slightly Stirry: 4 head	Temperament not assessed in Paddock
	Generally a very good mob of Droughtmaster females to handle. Obviously well handled and educated from their property of origin. Flowed through the process well. Were good cattle to muster. Pleasure to work with		
Handled With	Bikes , Dogs , On foot , Vehicles		
Assessor Comments	A very nice line of Droughtmaster Heifers - preg tested non detectable. Bred originally in Richmond North Queensland from the renowned Lazy A Droughtmaster stud and have run at "Wirchilleba" for the last 18 months. Have been depastured to Bongongo Angus and Rockingham Santa bulls since the 1st of August last year and these were the non detectable heifers at scanning. Very well educated and easy to handle for Bos heifers - after a long day of mustering and drafting there was no playing up at all. Please note the stipulated delivery dates due to remote location if you could work to this would be greatly appreciated - if its a drama talk to myself. Whether to go onto feed or to give another chance to the bulls these heifers will not disappoint.		
Assessor	Ben Emms (Level 3 Accredited)
