	These cows as seen in the video are well handled and calm even with a stranger, a couple of cows due to their size were a bit agitated on the scale in the confines of the crush but settled immediately on being released back into the mob.		
Handled With	Bikes , Vehicles		
Assessor Comments	An impressive mob of large well bred Angus cows, PTIC in December to a Topbos Angus bull. These cows, although mixed in age, would represent a good addition to any herd, or be a great start for someone looking to start a quality herd. The four oldest cows were mouthed and found to have good mouths (see photos) with one cow having a single gap. 3 cows were seen to have some white on the udder, only one of these extending slightly forward, and one cow has a curled toe, and longer claws on the other side, (see photos also)
