Assessor Comments A top quality line of Brahman heifers PTIC 2-5 months to Angus bulls. These heifers are very well grown and show excellent bone and confirmation. Heifers were good to handle in yards and crush. Mouthed 8 heifers 2 x 2th, 6 x milk teeth. Joined to Burenda, Te Mania blood bulls for first 3 months then joined to Sandon Glenoch Blood bulls for last two months. Preg tester results - Red Tag x 44, blue tag x 21. Approx break up - 38 x 5 months, 11 x 4 months, 9 x 3 months, 7 x 2 months. Very large frame heifers that will grow into very large frame cows. Heifers were purchased 2021. Principally 1 brand but observed 8 head different brand. Heifers still show very femine characteristics given their growth and weight for age. These heifers would be an asset to any breeding operation.
