These heifers handled through the draft and crush well for the assessment with just a couple in the mob becoming slightly stirred up after pressure was applied to them. They settled well in the yard afterwards and would be no troubles for an experienced cattlemen to handle.

Assessor Comments The Cook family have been breeding quality Hereford cattle all their lives and sourcing some of the very best genetics in the breed. For 22 years they have bought many of the top priced bulls from the well renowned Ironbark Herefords annual bull sales. Having bred a very fertile and functional herd of Hereford cows, which these heifers are out of. The heifers are all pregnancy tested by a registered Vet in calf to Hereford bulls. Majority of these heifers were joined as yearlings and are well grown for their age. Please note some of these heifers have got some horn regrowth / tipped horns. Two heifers in the mob have got old blight scarring in one eye. Don't miss a great opportunity to purchase a quality line of generational bred Hereford heifers out of a very functional herd of cows.
