Well handled cattle. Very easy to work through the yards and in the paddock. The Gall cattle have always showed a very passive temperament with many calves actually docile

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Vehicles
Assessor Comments	Quality line of big fertile well handled PTIC red tag EU accredited Charolais x cows. At testing, the entire cow herd tested over 99% in calf. Cows are majority Charolais Angus with some Santa and Santa Hereford evident with nice smooth hair type and some displaying naval. These cows have done a massive job with their calves to be weaned at delivery. Quite a few calves topped out at over 400kg. Calves being sold same day in the A+ weaner sale. Ideal re stocker cows to put a top in any herd. The scale of these cows also would allow a quick and profitable turnover. Sired by quality Palgrove Charolais Angus bulls with a 20 year history. Delivery will be a run out the gate 55 of 98 total Charolais x cows. Odd blue eye not detrimental.
