Well handled cattle. Very easy to work through the yards and in the paddock. The Gall cattle have always showed a very passive temperament with many calves actually docile

Assessor Comments
Quality line of big fertile well handled PTIC blue tag EU accredited black cows. At testing, the entire cow herd tested over 99% in calf. Cows are majority Angus x Charolais Angus with some Santa and Santa Hereford evident with nice smooth hair type and some displaying naval. . These cows have done a massive job with their calves to be weaned at delivery. Quite a few calves topped out at over 400kg. Calves being sold same day in the A+ weaner sale. Ideal re stocker cows to put a top in any herd. The scale of these cows also would allow a quick turnover. Sired by quality Palgrove Angus bulls with a 20 year history. Odd blue eye not detrimental
