Assessor Comments: A good line of Angus x Angus cross Heifers and calves. Heifers present in healthy store condition and they are doing a great job on calves. The cows average 471kg full at assessment, and the calves by Brangus bulls averaging 146kg. They present a good opportunity to re-join and add to the cow herd for future breeding. 3 heifers showed some cloudiness in one eye only and 2 presented with a white spot. 1 Calve was treated for pinkeye at assessment, this calve will be re assessed at delivery and removed along with its mother if deemed necessary.
