Assessor Comments	148 PTE Angus 4yrs Females that weigh from 415kg - 560kg to average 483.8kg. They are 2018 drop and were all mouthed at assessment to find 95 x 6T / 53 x 8T (The 8T consisted of cattle that had 7T or a freshly cut full mouth). These girls have all reared two calves but unfortunately have not tested back in calf for their third. Romani's joining program is very strict and females only have access to bulls for a tight 6 week window. Therefore, these 2018 drop females are pregnancy tested empty and on the market. Considering their genetics, they would suit to either slot straight back into a breeding program, join to the bull of your choice and retain as future breeders. They also have the growth and carcase traits to perform well in a feedlot or fatten and finish on crop / pasture. ***ROMANI ARE OFFERING 222 PTE FEMALES IN THIS SALE OVER 3 LOTS ***PLEASE NOTE: 10 head with scarring in one eye / 6 head with a cloudy eye / 20 heifers with white on the udder
