Assessor Comments	A line of 65 one mark mature angus females. These females are proven breeders and have reared big sappy 2021 spring calves that were weaned 2 day prior to assessment. These cows present in good store condition, are true to type and of sound structure to provide you with another productive season. These cows were joined to JT Angus and Millah Murrah bulls for a genuine spring calving. 53 cows are PTIC from the joining period October, November and December with the majority of the cows falling pregnant in the first 8 weeks. The remaining 12 cows went into calf in the month of January. These 12 cows are identifiable. The opportunity to secure mature one mark cows soon to have calves at foot. Please note that one cow has pink eye scar but still has some vision and doesn't effect her movement.
