Very kind young heifers to handle. Despite undergoing an A.I program and more recently, Preg testing, they were willing and well behaved to handle through the yards, race & crush. Lovely young future mothers were very well mannered & will only continue to improve with further handling and education.

Handled With Bikes , Dogs , On foot , Vehicles

Assessor Comments Very nice line of young future breeders. Retained as genuine keepers, Just falling out of the system as the family have decided to only retained the first cycle of joining. These females females represent the second round of joining, and should calve over a 3 week period, commencing around the 14th of September. All Preg Tested in Calf to L.B.W Hicks Beef Sires & Glenruben Angus sires, selected for temperament, structure, fertility & calving ease. Very quiet and easy to handle through the yards. Buyers please note. Vendor has another lot of the same heifers in sale, being the 3rd cycle females. Ideal to put with these heifers and have a nice line of 30 Heifers to calve over a typical 6 week period. Please see photos & videos for full contentment.
