Assessor Comments EU Angus & Angus x cows July/Aug 2015 drop PTIC to Paringa Angus bulls for July/August calving. Cows had big calves weaned 4 weeks ago so still plenty of condition to regain. Anyone wanting easy care females to calve down it would be hard to look past these. Cattle weren't mouthed but confident the females have more calves in them. A drench and multimin would make a real difference to these cattle given the tough winter and feed gap through summer. 1x white dot on rump, 1x white dot on nose, 7x white udders, 1x cloudy eye, 1x old grass seed lump under chin, 1x curled toe. Another 20 PTIC females in sale.
