|---|---|
| | No problems in handling and assessing these cattle. |
| Handled With | Bikes , On foot , Vehicles |
| Assessor Comments | A line of Vendor bred Heifers, PTIC for an early Spring calving. They are of a small to Medium frame and are in fresh condition. Given reasonable feed they will grow out further over the next few Months prior to calving. The Paringa Stabilizer genetics developed by Tom Lawson are aimed at high performance and feed efficiency. We sold the Brothers of these Heifers as Weaners last Autumn and they have done amazingly well for the Purchaser. Opportunity to put young joined Females in the paddock at not exorbitant money. Buyers please note that the vendor has some other young females in this sale. |
| Assessor | **Carlo Taranto (Level 3 Accredited)** Phone: 0418 368 739 |
