Assessor Comments	Buyers, a 2 deck offering of mixed aged Brahman cross PTIC cows 6 months plus joined to Angus and Brahman bulls. Please note Brahman bulls were only in for an 8 week period. These cows would be ideal turn over units to calve out and fatten or to put into a herd looking to rebuild numbers . The cows were free moving through the yards when assessing however some cows did become stirry and aggressive when pressure was applied in a confined area. Cows are in a tick area but are guaranteed to clean country, Processors note: cows have been pre-treated with Nil WHP or ESI chemical. With the only stipulation that interstate buyers pay the cost of a plunge dip at the clearing dip. If you are confused in any way, please call assessor. Buyer note: 1 cow with stumpy tail/no brush, 2 cows with fly bite and scarring.
