| Vendor Comments       | A good run of mixed age PTIC cows that would be ideal turn over cows. Surplus to requirements with cattle coming home from other country.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |     |                          |     |                             |     |

| Assessor Comments     | Buyers, a 3 deck offering of mixed aged Brahman cross PTIC cows 3-6 months joined to Angus and Brahman bulls. Please note Brahman bulls were only in for an 8 week period. These cows would be ideal turn over units to calve out and fatten or to put into a herd looking to rebuild numbers. The cows were free moving through the yards when assessing however some cows did become stirry and aggressive when pressure was applied in a confined area. Cows are in a tick area but are guaranteed to clean country. Processors note: cows have been pre-treated with Nil WHP or ESI chemical. With the only stipulation that interstate buyers pay the cost of a plunge dip at the clearing dip. If you are confused in any way, please call assessor. Buyer note: 1 cow with stumpy tail/no brush, 2 cows with fly bite and scarring. Buyers note there is 6 decks in the run and cows will be sold as run of the gate into B-Double lines. |     |                          |     |                             |     |
