	Cattle flowed through the yards freely. The females look for a gate and move to it quickly but can be blocked. Minimal pressure needs to be applied to these females to make them work off you. Out in the paddock they are good to handle once blocked and in a mob you can drive them away without fuss.							
Handled With	Bikes , Dogs , On foot , Vehicles							
Assessor Comments	OPPORTUNITY AWAITS. Buyers, a line of predominately younger Brahman & Brahman Cross females that are VET PTIC to Brahman, Brangus, Charbray & Droughtmaster bulls. These females when preg-tested ranged from 2 months to 8 months in calf and are of moderate frame & scale and have had a LWR of 315kg to 614kg full at assessment to have a delivery weight of 430kg with a 5% delivery adjustment. These females will be sold as 2 x b double 'run out the gate' loads (69 & 70 head). The vendor has pretreated these females at assessment to assist tick free buyers with adhering to tick clearance protocols. Buyers please note in media some cows were tipped for transport at assessment. Predominately younger cows with many being right on the job these would be ideal to calve out and grow calves to weaners to split or rejoin and sell as 3 in 1 units
