Assessor Comments	A line of predominantly Shorthorn x heifers PTIC to Speriby North Angus bull with low birthweight traits. Heifers have been running in mountain country and responded very well to being worked with a horse even when drafting heifers in the yards. Heifers are meant to commence calving towards the end of winter. **Please Note** 1 heifer had an injection lump and a stumpy tail. Vendor has another lot in the sale. 6 heifers marked with blue paint are <4 months in calf.
