	Cows that worked through the yards well despite the yards being vey wet. Cattle had been in the yards.		
Handled With	Bikes , Dogs		
Assessor Comments	A small line of 3 in one units. These cows are outside the vendors calving and were purchased with the property. The Vendor has there own bred females and genetics to bring onto the farm. These are breeders with a calf at foot and one on the way offering cash flow and a nice PTIC female to add into your herd. Calves are starting to pull the cows back a little bit and would benefit from weaning, Please note cows had been in yards for 20 hours before weighing as they had been in mothering up calves.
