Assessor Comments	Having purchased the same heifers last year and calved down with ease, I can recommend these heifers to go on and do a great job for the successful purchasers. Heifers have been joined to low birthweight angus bull. Please note - 1 heifer was noted to have an indentation on top of loin, unsure of cause. Not deemed to be detrimental to calving. Heifers travelled well in the paddock and processed through the yards well. When under pressure several became excited/agitated. We have another line of 78 PTIC heifers in the same sale.
