Assessor Comments	A good line of Brahman cross PTIC cows with 6/7 years of breeding ahead of them. Scanned in calf ranging from 2/7 months these cows were purchased PTIC to angus Charolais bulls. cows have weaners at foot and will be weaned at delivery. The weaners will be in two lots angus x and composite in the weaner sale on the same day. For delivery of cattle the vendor would like to load all cattle the same day due to no holding yards and a big muster program.
