	These heifers were generally quiet to handle, at no time did any of them become aggressive. However, they do flow through the yards quickly if allowed, or if to much pressure is applied.							
Handled With	Bikes , On foot , Vehicles							
Assessor Comments	A good quality line of well grown, cross bred heifers that are PTIC to a Narranmore Angus Bull. These young heifers are, for the most part, exhibiting good length, and depth of body, with plenty of thickness of bone for their breed. In order to complete the assessment, they were drafted off other cattle in the yards, on the ground. At no time were any of these heifers agitated, or aggressive, but they are inclined to move quickly if to much pressure is applied. They stood quietly in the race leading to the crush, and on the scales, with the exception 4 heifers.
