	Heifers moved through the yards well. They became slightly unsettled in crush when mouthing. Drafted through the round yard with ease. Just a few heifers moved off with a little bit more pace.

Assessor Comments	28 Charolais X PTIC 2nd Calvers. With their whole lives ahead of them these young matrons are really starting to hit their straps in life, Heifers all calved down with ease last year and raised a very good calf. They have only just weaned last years calves off them and they are starting to pick up in condition. They are showing very good length and depth and should continue to grow into fantastic cows in the future. These heifers have been joined to the Bongongo Angus bulls for a 2 month joining and have all joined up very well. Heifers will start calving for a mid Sept- early November calf.
