Slightly Stirry: 1 head	Slightly Stirry: 4 head	Paddock							
	Cattle are generally good to handle and move with ease throughout the yards. 4 heifers noted to become agitated in the crush when being mouthed, once released they became quiet and placid.								
Handled With	Bikes , On foot , Vehicles								
Assessor Comments	Buyers presented are 15 genuine Angus second calvers PTIC to the Speckle Park Bulls. These Heifers present in predominately forward store condition and averaged 565.7Kg at assessment. Each Heifer was individually mouthed for buyer confidence on age ranging from 2-6 teeth. A tail has been removed from the herd. 2 heifers noted to have 1 blue eye, not affecting heifers vision or performance. These heifers are of medium to large frames and are in ideal condition to continue maturing and developing into a good spring calving article. Calving will commence mid October through until very early December. Heifers are in calf to the JAD Q82 White Speckle Park Bull and Minnamurra Montezuma MPC M25, two leading bloodlines and sire producing breeders in the Speckle Park industry. A great opportunity to secure a line of heifers PTIC to leading Speckle Park sires, that will continue to grow and mature into feminine type cows and produce an ideal Speckle X Angus calf.								
Assessor	Tom Card (Level 3 Accredited) Phone: 0438 594 675
