|                    | Heifers were a pleasure to work through the yards. Cattle move off pressure with ease and would suit all livestock handling ability.                                                                                                                                                                                                                                                         |                                           |                                     |

| Assessor Comments  | Buyers, a small but attractive line of PTIC Hereford Heifers all in calf to a black Angus bull. 10 being AI'ed to Booramooka P411 with the remainder being joined to LBW Gilmandyke R37 and a Hicks Red Angus Bull. All heifers handled the process well and were a pleasure throughout. This is a great opportunity to start your very own breeding herd or add to an existing operation.   |                                           |                                     |
