	These heifers have been properly educated in a large mob and are very quiet to handle in the paddock and in the yards. Approx 4 heifers became stirry in the crush but settled quickly after re-joining the mob. Handled with low stress stock handling practices.		
Handled With	Bikes , Dogs , On foot , Vehicles		
Assessor Comments	A nice line of 9 PTIC Angus Heifers that will commence calving late July 2022. Joined to Lawson Angus Bulls, specifically selected for calving ease with a moderate mature cow weight and good growth. A conscious effort has been made by the vendors to keep weight and condition off of these heifers, offering them at an ideal weight and condition to carry forward to calving. Heifers out of this programme have historically calved very easily and if managed correctly, these heifers will give similar results. PTIC for a tight 4 week joining, these heifers are the perfect article for anyone wishing to calve down heifers. These heifers would be great for any smaller operation looking to build numbers. Buyers please note there was 1 heifer with old pink eye scarring in one eye, not deemed detrimental. Also note the vendor has another lot of PTIC Heifers in the same sale for those wishing to put larger lines of heifers together.
