Assessor Comments	An excellent line of Heifers that are PTIC to top grade Hazeldean Angus Bulls. Sires were selected by the Macdougall Family focusing on Low Birth Weight & High Calving Ease. The Macdougall family run an outstanding herd of medium to large frame cows with the average weight of there working cows being between 650 & 700kg. They use high quality bulls over these cows with a focus on birth weight, calving ease, structure & temperament as well as balancing growth & carcass data. These heifers show excellent type, softness and frame. These future breeders would be an excellent addition to any herd.
